Abstract - *Type the abstract should be using Italic font with point size 10. The abstract is an essential part of the paper and should be summarised in about 200 words. Use short, direct, and complete sentences. It should be as brief as possible and concise. It should be complete, self-explanatory, and not require reference to the paper itself. The abstract should be informative giving the scope and emphasising the problem, method, results or significance of the work described and conclusion. Do not use the first person; do not include mathematical expressions; do not use references and try to avoid acronyms.*

Keywords: Tracking, filtering, estimation, information fusion, resource management.

1 Introduction

These guidelines include complete descriptions of the fonts, spacing, and related information for producing your manuscripts. This document has been prepared using the required format (Microsoft *Word* version 6.0 or later). Using this document as a template is highly recommended as it gives the best input for the final publications. (Papers prepared using applications other than Microsoft *Word* must conform to the format and criteria detailed in this document.)

The paper is to be written in one-column format and be right and left justified. All printed material, including text, illustrations, and charts, must be kept within a print area. The margin of the manuscript is **Normal (1",1",1",1")**. Do not write or print anything outside the print area.

1.1 Instructions for authors

An electronic copy of your *full paper* must be submitted (*only* in .doc format) to the web.

2 Formatting instructions

MS Word users: please use the paragraph styles contained in this document: Title, Heading 1, Heading 2, Abstract, Keywords, Body Text, Equation, Reference, Figure, and Caption. Do not add any page numbers, and do not use footers and headers. You are not allowed to change the styles manually, because it may result in additional work (or exclusion from the proceedings if repeated in your final accepted camera-ready paper).

2.1 Length

The *maximum* number of pages for your paper is **15**. Please take some time to review the text again for improvement or consult the Editorial Board.

2.2 Title

Type the title approximately 3.5 centimeters below the top border of the letter size paper sheet and use a 20 point size typefont. Center the title (horizontally) on the page. Leave approximately 1 cm (0.4 inches) between the title and the name and address of yourself and of your co-authors, if any. Type the name(s), address(es) and email in an 11 point font and center them (horizontally) on the page.

2.3 Spacing

Each section (or subsection) should be separated from the previous text by 12 points (as indicated in the format/paragraph menu).

2.4 Section and subsection headings

Number the section and subsection headings consecutively in Arabic numbers and type them in bold. Use point size 14 for section headings and 12 for subsection headings. Avoid using too many capital letters. Keep all section and subsection headings flushed left. If any further subdivision of a subsection is needed, the titles should be 12 point.

2.4.1 Subsubsection heading

All inner subsection headings will be using point size 12 and type them in bold.

2.4.1.1 Last inner subsection heading

Avoid using too many inner levels of subsection. Preferably up to four levels.

2.5 Main text

Use 2 centimeters (0.8 inches) for the left and right margins. Use 10 point Times New Roman font (Bodytext) for text (character size). Do not use bold in the main text; if you want to emphasize specific parts of the main text, use italics. Start a new paragraph by indenting it from the left margin (and not by inserting a blank line). Leave a margin of at least 2 centimeters (0.8 inches) at the page head (for placing the final numbers and running heads in final accepted papers). The typing area should not exceed 24 x 17.5 centimeters (9.4 x 6.9 inches). The text should be prepared with a single column format and single line spacing.

2.6 Tables

All tables must be embedded in your document. They must be numbered consecutively (in Arabic numbers). Table headings should be placed (centered) above the table. Place tables as close as possible to where they are mentioned in the main text, as in Table 1.

Table 1: SI base units

Symbol	Name
kg	kilogram
m	meter
A	ampere

2.7 Figures

All illustrations should be embedded scans of original drawings or photographic prints of originals. All figures must be embedded in your document. All illustrations must be numbered consecutively (i.e., not section-wise), using Arabic numbers. Center figure captions beneath the figure (see Figure 1). If possible, do not assemble figures at the back of your article, but place them as close as possible to where they are mentioned in the main text. No part of a figure should go beyond the typing area. Figure captions should appear (centered) below graphical objects, as in Figure 1. Figure 2 shows the layout of 2 subfigures.

Figure 1: Fusion data flow

Figure 2: Effect of flipping a pixel: (a) original block of pixels; (b) no isolated dot

2.8 Mathematical formulas

Mathematical formulas MUST be typed using Microsoft Equation Editor and should be roughly centered and numbered, as in:

$$y = f(x) \quad (1)$$

2.9 Fine tuning

- Do not end a page with a section or subsection heading.
- Keep footnotes to a minimum.
- Do not use footers and headers.
- Do not include page numbers in the text (this will be our job for final accepted papers).

- i. Number point 1
- ii. Number point 2

3 Conclusions

This sample paper presents the formatting instructions for initial paper submissions to JCSI. Please submit your article online at <https://publisher.unimas.my/ojs/index.php/jcsi> .

Acknowledgements

The authors may includes acknowledgements, for example to government agencies or privates corporation who funded the research from which the results are used in this manuscript.

Conflict of interest

☐ The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

□ The authors declare the following financial interests/personal relationships which may be considered as potential competing interests:

References

References to the literature should be mentioned in the main text by using the **APA reference styles** - whereby the author's surname and year of publication are cited in the text, e.g. (Nellson & John, 2004) or (Krause et al., 2006). According to Nellson and John (2004) or Krause et al. (2006), a reference list of these citations is listed in alphabetical order by author, under the heading “**References**”.
